Of the quol of Rs 67 7 payable by the Municipality for the scheme Rs 14 000 would be available for being placed at the disposal of the P W D for expenditure soon after the scheme sanctioned and as regards the balance of Rs 5 47 the Municipality applies for subvention from Govt out of the Rural Improvement Funds in accordance with the scheme sanctioned in the Order of Octr 924 and requests the grant of a loan of Rs 5000 payable in 5 instalments and for early orders to the Chief Engr to sd Town

NOTES AND ORDERS

The Chief Engineer has replied in his letter N 9383 Dy 26 Decbr 924 (D 4 15) that the Project for water supply to Mundagere Town has been forwarded to the Secy to Govt Public Works Department for countersignature and the return of the same is awaited

2 The Mund council ask for a grant of Rs 5147 from the Malnad Improvement allotment and from whatever source this may be sanctd it will go to enhance state contribution by Rs 5147. As an alternative, the Mund council requests the grant of a loan of Rs 5000. But the Dy Comr states that the Mund council will not be in a position to repay the loan and provide the annual maintenance charges amounting to Rs 30·60 a year

3 According to the accounts of the Municipality for 1923-24, the Mund council have had an ordinary income of Rs 5433 and an expenditure of Rs 5390. The investment in the Savings Bank is Rs 10,500 and the surplus current balance is Rs 2500 nearly. The Mund council can therefore readily provide a sum of Rs 13,000. Towards the water supply scheme and the rest viz Rs 25,314 will have to be borne by the Govt

4 Even if the Govt is prepared to enhance their quota of the capital cost to the required extent it is doubtful if the Mund council can increase their present income of Rs 5433 by Rs 3060. The NCTP Gond Sirsi

Budget of the Municipal for the current year has not yet been received and it might throw some additional light as to the feasibility of the maintenance charges being sufficiently raised so as to ensure that the outlay on the scheme may not ultimately be a waste of public funds

Submitted for orders

25 3 No money is available for being granted from the Revised Budget Estimate during the current year. No doubt the work if sanctioned may be started out of the money available with the Municipal Council. The Municipal will have to keep up sources of revenue to meet the maintenance charges & even then it is doubtful if they could increase their income from Rs 500 to 8000. As stated by the Director of Public Works the grant of any loan to the Council will make the matters still worse. The estimate has not been received yet.

30 It appears from the question of the Corporation that the Municipality should appear to be in a position to meet the annual maintenance charges which are expected to amount to about Rs 3,000. The Dy Com appears to be under the belief (vide his letter dy 29/8/26) that no very heavy annual charges are involved in the maintenance of the works. I think it is not necessary to impress the Municipality's ability to meet the maintenance charges. I think it is also unnecessary to impress the Municipality's ability to meet the maintenance charges. I think it is also unnecessary to impress the Municipality's ability to meet the maintenance charges.

St Lambert 8/4 31/3 8756 B13 26

On going through the Budget Estimates for 25-26 I find that the Estimated ordinary receipts amount to Rs 4675- p.a. and only sum of Rs 370 is expected from the Investment (Rs 600), Sale of lands (150) Sale of Live stock Rs (100) thus making a total of Rs 5345-.

As against this, the Estimated Expenditure amounts to Rs 5499 almost the whole of which is of a recurring nature; and I cannot see how any portion of the Expenditure can be or is expected to be reduced.

In the circumstances it is difficult for me to understand how the Municipality can manage to 'Scrape' together Rs 3500 p.a to meet the annual maintenance charges of the works as stated by the Dep't concerned unless the whole of this amount can be obtained by additional taxation.

I fully sympathise with the people of the place in their efforts to secure a good water supply ~~but before sanctioning the project I think we should have a clear idea~~ and I think I am not

X I presume this amount will come into account when the workmen is working for the waterworks

(b) All cases sent to the Financial Secretary under this rule should be treated as immediate and returned to the Department concerned within three days of receipt

Extract from the Proceedings of the Council is put up

Forwarded, with compliments, to the Financial Secretary to Government, under paragraph 9 * of the Government Order No G 17572-8—G M 676-17-1, dated 22nd June 1918

By Order,

Chief Secretary to Government

73

The Project is estimated to cost Rs.38,314 of which the Mudegere Municipality is prepared to contribute only Rs.14,000 The balance of the estimate of Rs.24,314 will have to be contributed by Government. What provision has to be made for the work as the Government share in the Budget of next year and whether such amount can be met out of the allotment that may be made for Improvement of water-supply in towns with reference to the commitments already undertaken are points requiring consideration. If the work can be started with the Municipal contribution and the Government Grant, suitably spread over the next and the succeeding years, there is no financial objection to the estimate being sanctioned provided the Municipality is capable of meeting the maintenance charges.

76 The Vice President of the Municipal Council has presented the accounts of the Municipal Lodge for the years 1520-21 & 1521-22.

The income & expenditure of the Municipal Lodge actually for those years has been as follows

(1) 1521-22

Income. 4057-15-7 Expenditure 3057-4-10.

The Savings for the year was Rs1000/- At the year, the Council deposited in the Savings Bank a sum of Rs1000/- The chief items of revenue were octroi, Ship tax & grounds each contributing Rs1813, 300 & 250 respectively.

(2) 1522-23

Income Rs 6135-4-1 Expenditure Rs 3534.

Savings Rs 2541

This year there was an additional source of income viz tax on buildings. The receipts under these heads were 2235, 662, 385 & 1206

No amount was deposited this year.

(3) 1523-24.

Income Rs 7432-14-3 Expenditure Rs 3850-3-9

Savings were Rs 3582-10-6.

The receipts under the several heads noted above were 1775, 561, 3522 & 1573.

The Council deposited a sum of Rs 2500 this year

(4) 1524-25

Income Rs 5886 Expenditure Rs 3875-

Savings Rs 2031-13-1

This year octroi collection was 2158, tax on buildings Rs 1158 & grounds Rs 657.

Note—Contn Sheet

WD 1264—GPB—40,000—17 12-28

Serial No

The Council also deposited a sum of Rs 2553/.

7) The annual maintenance charges at the initial stage is said to amount to Rs 2400 per annum & ultimately Rs 3080. It will thus be seen that the Council might be able to meet the maintenance charges first for the initial stage the Chief items of revenue which it can depend upon are octroi, tax on buildings, pound collections & sheep tax. They will also levy charges for water made which an income of Rs 5000 a year is expected The Municipal will thus be able to meet the maintenance charges.

8) For the Capital outlay, the Council have ready Rs 14000/ out of their this year savings they are anticipated by them for much urgent wants. They first have provided Rs 55000/- for this years grant for water supply scheme. The work can be started with the above 2 sums - The sum of Rs 55000 if not utilised before the end of the year will lapse 2) The balance of Rs 5000/- of the Hindu Share is left to be given by first out of the Railway Dept grant

87 The particulars given in the Assistant Secretary's note above are those furnished by the Vice-President of the Mudegere Municipality Mr. Rangarajiah, who is now here and who interviewed the Dewan yesterday. It is necessary to obtain a definite report based upon a resolution of the Municipal Council regarding the financial capacity of the Municipality to bear the annual maintenance charges. The report may be called for through the Deputy Commissioner before taking any further action in the matter. We may address the Deputy Commissioner immediately as proposed in the draft letter put up, and as soon as a reply is received the project may be sanctioned, if the proposals of the Municipal Council supported by the Deputy Commissioner show that the

will be no difficulty in finding the money required every year for maintaining and operating the water supply scheme. I have asked Mr. Rangarajiah to arrange for a very prompt reply being sent to the communication addressed to the Deputy Commissioner.

Mudigere Water Supply Ref para 75

Dewan 8/4 Draft May I see 10-4-26 8/4 13 4 8/4 13 4 14/4

11 To, The Deputy Commissioner, Kadur dis No C 6469/a 14 4 26

Requests to submit a report in the matter of financing the annual maintenance charges of the Mudigere Water Supply by the municipal Council

No OC 964 & 23/4/26 from the D.C Kadur States that the Mudgere Mu. Cl. has the necessary means for meeting the annual maintenance charges of the proposed Water Supply Scheme.

8/4 From the report now received it is seen that the actual Closing balance for 1922-23 works up to Rs 2540-11-2
" for 23-24 " 1542-10-
" for 24-25 " 2030-13-
and it is expected that a larger closing balance may be anticipated for 25-26

Serial No

84) It is further stated that retrenchment in Mel establishment result hereafter in an annual savings of Rs 600/- & it is hoped that ~~in the~~ on the whole the Municipality will save on an average Rs 4996 a year & deducting Rs 3000/- for maintenance charges of the Water-Supply project they hope still to save Rs 2000/-

85) The DC recommends sanction to the Scheme and Considers that the Mel CI is Capable of providing for the annual maintenance charges which amount in the initial stages to Rs 2400 only.

Income from Miscellaneous receipts is expected to yield ——— Rs 600

Average income from Water Cesses estimated at ——— Rs 500.

~~How far these estimates are Coo~~

86) It is not clear whether there are cautious estimates & realisation from ~~the~~ Sale of Building Sites which is ~~estd~~ estimated at Rs 500/- does not appear to be a recurring item of receipt - Allowing a sufficient margin for all this it may perhaps be said that the Mel CI will be able to meet the annual maintenance charges in question.

88 The project may be sanctioned subject to the following conditions

Capital Cost.

This is estimated at Rs 38314 The Municipality is prepared to pay only Rs 14000 and requests that the balance may be paid by Govt as a free Grant. This request can not be complied with. The Municipal Council must provide its full share of one half of the cost It has got the money and there is no more urgent or important need than Water Supply and so the Municipality may be required to pay the whole amt. As regards Govt share a sum of Rs 9500 has been allotted this year. It may be used for incurring expenditure this year or better still it may be paid to the Municipality this year irrespective of the expenditure that will be incurred this year. It is not possible to provide the whole of the Govt grant in next years budget. If Rs 9500 is paid this year the balance payable is Rs 9607 and this may be provided in next years budget and the actual payment limited to one fifth of cost of the Scheme

2 Maintenance and Operation

The expectation of the Municipal Council regarding its future income is a little too sanguine but it appears from the

NOTE—Contd Sheet

WD 01264—GPB—40,000 -17-12 25

Final Note by the Second Member of Council.

Subject:—

Water-supply to the town of Mudgere in the Kadur District.

These papers relate to the project for water-supply to the town of Mudgere in the Kadur District.

With his letter dated the 29th December 1924, the Deputy Commissioner, Kadur District, submitted for the sanction of Government certain proposals for financing a scheme of water-supply to the Mudgere town, costing a sum of Rs.38,314. The project was considered by the Municipal Council at its meeting held on the 23rd November 1924 and has received its acceptance The Chief Engineer has also recommended sanction to the project.

A note explaining the details of the proposed scheme accompanies the Chief Engineer's letter. The question of providing Mudgere with a supply of good drinking water has been under consideration for nearly 40 years now, and it has not so far materialised, mainly because of the inability of the Municipality to bear its share of the initial cost and of the annual maintenance charges. As an alternative, attention was paid to the deepening of existing wells and the excavation of new ones in suitable localities, but the results have not proved satisfactory and the water difficulty continues to be keenly felt as before. Mudgere is a pucca malnad and has a population of nearly 1,300, according to the recent census. The general health of the residents of the malnad has not shown any material improvement due to insanitary conditions prevailing there, which arise largely from water distress. The first need therefore towards securing an improvement in those conditions is the provision of a satisfactory system of water-supply and the improvement in the resources of the Municipality during recent years has enabled it to come forward with a practicable scheme for financing its share of the cost.

In the ordinary course, the Government and the Municipality concerned will have to bear the cost of water-supply projects in equal proportion. In the present case, however, the Mudgere Municipality has stated that it would be possible to make available a sum of Rs.14,000 for expenditure on the scheme immediately and has requested that the balance of its share, viz., Rs.5,157 may be paid by Government as a free grant. This request, it is not proposed to comply with. The annual maintenance charges are estimated at Rs.3,060 and the Municipality hopes to provide this amount by improving its resources under octroi and by the levy of a water-tax. It has been further elicited that by retrenchments in the municipal establishment and by the augmentation of its receipts in the above directions, the Municipality can save on an average Rs.4,996 a year and is therefore in a position to provide the means necessary for meeting the annual maintenance charges which amount in the initial stages, to Rs.2,400 only. The Deputy Commissioner concurs in this view.

The whole question has been carefully examined with reference to the financial position of the Municipality and its commitments. In view of the importance and urgency of the scheme, it is proposed, in the accompanying draft Government Order, to sanction the project subject to certain conditions detailed in the order, as regards the capital cost and the annual maintenance charges of the scheme.

The draft order has the concurrence of the Dewan and I solicit the gracious sanction of His Highness thereto.

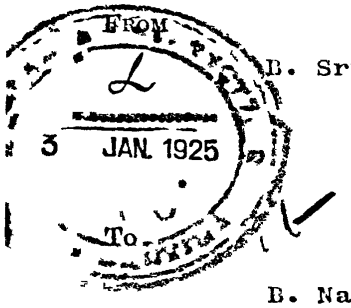
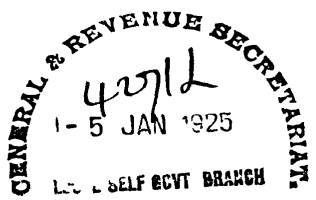
OFFICE OF THE DEPUTY COMMISSIONER,
KADUR DISTRICT

Dated Chikmagalur, 29th December 1924





B. Srinivasa Iyengar, Esq., B.A., B.L.,
Deputy Commissioner,
Kadur District

Mil 167-24

B. Nagappa, Esq., Bar-at-Law,
Secretary to the Government
of His Highness the Maharaja of Mysore,
Local and Legislative Departments,
Bangalore

SIR,

Water Supply to Mudigere Town.

I have the honor to address you on the question of financing the Mudigere Water Supply Scheme. With his letter No.7212 dated 11th --- November 1924 the Chief Engineer forwarded to the President of the Mudigere Municipality, a project amounting to Rs 38,314/- for water supply scheme and requested the Municipality to return the project with proposals to finance the scheme. This project was considered by the Municipal Council in its meeting and has received their acceptance. I submit for the information of the Government the copy of - the President's report dated 25th November 1924 with a copy of the -- resolution of the Municipal Council.

2. Of the quota of Rs 19,157/- payable by the Municipality a sum of Rs 14,000/- would be available for being placed at the disposal of the Public Works Engineer for expenditure soon after the schere is sanctioned by Government. As regards the balance of Rs 5,147/- the -- municipality appeals for subvention from Government out of the Malnad Improvement Funds in accordance with the scheme sanctioned in the order of 1st October 1924. As an alternative to this proposal, they request that a loan of Rs 5,000/- payable in 5 instalments may be granted to them. According to the project prepared by the public Works Department the annual maintenance will cost about Rs 3,060/- and as it would be

impossible

impossible for the Municipality to provide for the mainte. charges and repay the loan, the alternative proposal made by the Municipality is not practicable. I would there request that a sum of Rs 5,000/- be allotted out of the Malnad Improvement --- Funds.

3. The question of providing Mudigere with a good supply of drinking water has been engaging consideration for 40 years. In the G.O.No.9832-4 Ml.363-10 dated 27th May 1911, the idea of any costly scheme of water supply to the Mudigere Town was given up mainly because of the inability of the Municipality to finance its share of expenditure. It was proposed as an alternative that attention should be paid to the deepening of existing wells and - excavation of new wells in suitable locality. Conditions have -- not, however, improved since then and the water difficulty has practically remained as it was. The Senior Surgeon and --- Sanitary Commissioner during his last inspection in this District has laid stress on the fact that the insanitary conditions in the Malnad are due to a large extent to water distress. Mudigere Town is a packa Malnad area and unless this long felt want is supplied there is no hope of material improvement in the general health of the residents. So far as the initial cost is concerned the Municipality will contribute Rs 14,000/- and they ask for a grant of Rs 5,000/- from the Malnad Improvement Funds to make up the half share of the project.

4. As regards the annual maintenance, the cost is estimated to amount to Rs 3,060/- and the Municipality propose to meet it out of their present resources supplemented by the levy of water-tax. According to the current year's budget the receipts and expenditure practically balance, leaving no margin for additional expenditure and in this view the Municipal Council's proposal may appear to be over sanguine. But there is reason to believe that there is considerable leakage under Octroi. Provision has been made for the construction of an Octroi Katte and steps are being taken for prevention of this leakage.

The

The Municipality expects a considerable increase of revenue from this source. The levy of a water tax will bring in at least Rs 500/-. The House-tax has not been revised for some years and its revision will also help to improve the resources of the Municipality.

5. On the whole, there is every prospect of the Municipality being able to finance the annual maintenance charges and all that they expect is that the Government would make up the full initial cost of -- which they can provide Rs 14,000/- only. In view of the importance and urgency of the scheme, I would respectfully appeal to Government for a sympathetic consideration of the above proposals and for early orders to the Chief Engineer to start the work.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,
Kadur District.

K.L.N.

Report No. 126/24-25 dated the 25th November 1924, from the the President, Municipal Council, Mudigere, to the Deputy Commissioner, Kadur District - Chikmagalur

D.O. letter dated the 13th July 1925 from the President, Municipal Council, Mudigere Town, to the Chief Engineer of Mysore

---

You had informed me that the estimate for the water supply scheme of this town would be sanctioned early when I had been to Mysore. The Government have graciously given a grant of Rs 10,000 towards the scheme for this year's allotment. If the estimate is sanctioned before October 1925, it would facilitate to call for tenders and to entrust the work to any contractor to work out the full allotment.

SIR

With reference to your letter No.L.31/Ml.147-24 dated the 6th October 1925 enquiring why the annual maintenance charges of the Mudigere water supply should be so heavy as Rs 3,060, I have the honour to state that the estimate of Rs 3,060 provides for the ultimate requirements when the work may be completed and when the pump may have to be worked for the maximum period.

2. Till the works are completed in all respects the Municipality may perhaps effect some savings by asking the Driver to do the work of the fitter also. The consumption of fuel and lubricants will be proportionate to the duration of the working of the engine.

3. It will thus be seen that although the ultimate requirements are estimated at Rs 3,060 the charges in the initial stage would be only Rs 2,400 as per details below -

Establishment.-

Driver.....	Rs 40
Oiler & cleaner ...	Rs 15
Watchman	Rs 10
Fuel.....	Rs 120
Lubricants	Rs 15
	Rs 200 per mensem or Rs 2,400 per annum.

4. The estimate received with your No.L.3571 18th November 1925 is returned.

Sir,

With reference to your letter No. L.6469/Mul 147-24-11 dated 14-4-26 re the Mudigere Water Supply project, I have the honor to forward herewith a report together with the resolution of the Municipal Council in the matter.

2. I would recommend that the project may be sanctioned as the Municipal Council is in a position to provide the necessary means for meeting th annual maintenance charges of the proposed Water Supply Scheme.

I have the honour to be,
Sir,
Your most obedient servant,

Tr. Assistant Commr
for Deputy Commissioner,
Kadur District.

M.L.A.

Hy. (Absent from Stn.)

1. Capital cost - It is reported - that the Municipality is prepared to -- pay Rs. 14,000 only towards its share - and requests that the balance may be paid by Government as a free grant This request cannot be complied with The Municipal Council must provide its full share of one-half of the cost It has got - the money and there is no more urgent -, or important need than water supply

As regards Government share a sum of Rs. 9,500 has been allotted this - - year This will be paid to the Municipality this year, irrespective of the expenditure that will be incurred during the year The balance of Rs 9607 will be provided for in the budget for 1926-27, actual payment being limited to one-half the cost of the scheme

2. Maintenance and operation - The expectation of the Municipal Council -- regarding its future income is a little too sanguine, but it appears from the - information furnished that it can - - manage to find the required amount - - every year This demand will be treated as a first charge on the revenues of the Mudgere Municipal Council and in --, sanctioning the annual Budget Estimates the Deputy Commissioner should see that other expenditure is permitted only out of the balance left after necessary provision has been made for the maintenance charges in question

3. Proposals for reduction of expenditure and for improvement of revenue - If any definite proposals in this matter have been received from the Mudgere Municipal Council, they should be disposed of promptly by the Deputy Commissioner, if they are within his powers of disposal or submitted to Government promptly for their orders when necessary If no such proposals have been -- received, they should be called for immediately and needful action taken at - once Measures for retrenchment of -- expenditure and increase of revenue - - within the powers of the Municipality - should be brought into force immediately
